DETAILED ACTION

Election/Restrictions

Claims 27-33 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3, 4, 6-16, 18-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Morad (US patent no. 6,023,812). Morad disclosed all the claimed features of applicant's invention (see illustration below). Morad's arm does pivot independent of the movement of the shaft.

Claims 23-26 allowed.

Claims 5 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 3-33 have been considered but are moot in view of the new ground(s) of rejection.
